

DINESH KUMAR P

Python Developer | Web Developer | SQL Developer | <https://dinesh-portfolio-red.vercel.app/>
dineshdk6125@gmail.com | 8667683115 | Virudhunagar | GitHub: <https://github.com/Dineshkumar7217>

PROFESSIONAL SUMMARY

Aspiring Software Developer with knowledge in Java, SQL, Automation (Basics) and Web Technologies. Interested in building efficient applications and continuously learning modern technologies to contribute to organized growth.

TECHNICAL SKILLS

Languages: Java, Python, SQL
Web Technologies: HTML5, CSS3, JavaScript
Databases: MySQL, MongoDB, Oracle
Frameworks & Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
Tools & Platforms: Git, GitHub, VS Code, NetBeans, UIPath RPA
Technologies: Machine Learning, IoT (ESP32), Automation (UIPath)

EDUCATION

B.E. Computer Science and Engineering — Thiagarajar College of Engineering, Madurai 2023 – 2026

CGPA: 7.42 / 10.0 (up to 8th Semester)

Diploma in Computer Science and Engineering — S. Vellaichamy Nadar Polytechnic College, Virudhunagar
2021 – 2023

Percentage: 97.61%

PROJECTS

IoT & AI-Based Smart Crop Recommendation System Python | IoT (ESP32) | Machine Learning

- Engineered a real-time decision support system (DSS) using ESP32 IoT sensors integrated with weather and market data APIs to deliver precision crop recommendations.
- Boosted prediction accuracy by 15% by implementing ensemble ML models (Random Forest, Gradient Boosting) over baseline classifiers.
- Developed an end-to-end precision agriculture analytics platform, reducing manual intervention through automated data pipelines.

Diabetes Prediction System Using Machine Learning Python | Scikit-learn | Pandas | NumPy

- Built and trained a Random Forest Classifier achieving high-accuracy classification of diabetes risk from patient medical datasets.
- Performed comprehensive data preprocessing including missing value imputation, feature selection, and train-test splitting to improve model reliability.
- Visualized model performance metrics (accuracy, confusion matrix, ROC curves) using Matplotlib and Seaborn for actionable insights.

Restaurant & Bakery Website (Web Application) HTML | CSS | JavaScript

- Designed and developed a fully responsive, dynamic restaurant and bakery website with online menu display.
- Interactive front-end features: navigation, product showcase, menu sections.

INTERNSHIP EXPERIENCE

Web Development & SQL Intern — Getin Technologies 2024

- Developed and deployed dynamic web components including interactive UI elements and server-side database query modules.
- Gained practical full-stack development experience by collaborating on real client projects, improving page performance and database efficiency.

Artificial Intelligence Intern — Phoenix Technologies 2024

- Designed, trained, and evaluated supervised ML models for classification tasks using Python (Scikit-learn, Pandas, NumPy).
- Applied AI/ML techniques to industry-relevant use cases, translating raw datasets into predictive models with measurable accuracy improvements.

CERTIFICATIONS & ACHIEVEMENTS

MongoDB Developer Certification, IIT Bombay Spoken Tutorial: PHP & MySQL, UIPath RPA Completion Certificate, NCC 'A' Certificate

Achievement: Graduated Diploma with 97.61% — among top performers in batch. Active YouTube tech educator (@Webandbot-tech) covering Web & Automation topics (YouTube: <https://www.youtube.com/@Webandbot-tech>).
